White Paper

About TradeNetCoin

1 What is TradeNetCoin?

Nowadays in the era of such centralized systems as banks and governments everyone wants to be free and independent. Cryptocurrencies were a starting point of the new order where decentralized platforms rule the world. In such systems there is no central bank or server, and information and money exchange is conducted between the separate network participants scattered worldwide. Each participant is an equal member of the whole ecosystem.

TradeNetCoin cryptocurrency is a symbiosis of blockchain technologies and traditional financial systems viewed through the prism of cryptocurrency. Not demanding a big entrance threshold for investment, it will allow to enrich ordinary people.

2 Why choose TradeNetCoin?

At the disposal of our platform there are few large mining farms which we plan to expand, including by the investments collected during the ICO. We conduct a thorough analysis of new perspective altcoins and mine nearly 40% from them. This is what brings us a very good profit.

We have also several tens of trading bots which trade in these altcoins at various cryptocurrency exchanges. All together they form a powerful trading network.

Now we've decided to release a stable cryptocurrency based on the Ethereum blockchain, and our initial target we've set for ourselves is 100 dollars for each coin.

We will spend the funds raised during ICO on expansion of our farms and trading bots network. We will leave a small part of the profit to cover expenses and share another part with our investors. We expect these actions to shortly raise our tokens' rate. This way investors will receive good percent not only during participation in lending program, but also and from sale of coins.

We try to diversify income of our platform to reduce the investment risks and increase the income of our investors. Join us and finally become the architect of your own wealth

Investment opportunities

1 Trading

Each investor can trade in our tokens at the cryptocurrency exchange and earn profit on the coin's growth. We predict growth of TradeNetCoin tokens up to 100 dollars for a coin.

When developing the TradeNetCoin platform, we're planning to enter cryptocurrency exchanges in several stages: first we will place tokens at more available exchanges, such as Etherdelta and Novaexchange, then, after listing on CoinMarketCap, we will begin negotiations with larger platforms such as Binance, Bittrex etc.

2 Lending

Any participant of ICO can buy tokens and put them into lending. In this case he will receive daily interest from the contribution which size can vary from 1% to 5% per day. All interests are paid in dollars which then can be reinvested back into lending, having once more increased the capital, or to withdraw them buying TradeNetCoin coins and exchanging them for bitcoins, Ethereum or other cryptocurrency.

3 Staking

Another way to earn money on the TradeNetCoin platform is just to store tokens in our special wallet. As a reward for devotion and belief in our platform we will also assess interest for you, only this time as coins. This way, keeping tokens on your wallet, you will increase their amount and will be able to sell them later at a very beneficial rate.

4 Affiliating

We have developed the effective referral system which will allow each participant to build his own network without any limitations. You will receive several types of referral bonuses for each new participant attracted to our platform. This way the TradeNetCoin platform will grow and develop, and you will receive very good dividends. As a result of this symbiosis, each participant will gain even more income!

Lending Program

1. ICO BENEFITS. Participation in Lending Program is only done using TradeNetCoin tokens. Therefore, those participants who buy coins during the ICO, will get an excellent opportunity to enter first in the lending.

In the future, coins for Lending Program will be available on the Internal Exchange, however, note that the coin value on the Exchange can be several times higher than at ICO, so participate in ICO and you will have significant advantages.

2. PRE-LENDING. After the end of ICO, the TradeNetCoin tokens will be accepted for lending at a rate of at least \$5. However, please note that this promotion will be available only to ICO participants in the **Pre-Lending Program**. All the others will be able to buy and invest coins in the lending at the exchange rate.

3. REINVESTMENT. The TradeNetCoin platform will not be able to make reinvestment into an already open deposit. The minimum amount for opening a new deposit is \$100. Thus, in order to make a reinvest, you need to make a profit of not less than \$100.

Investor	Lending amount	Additional bonus interest per day	Min/Max interest per day	Total interest per month	Duration
Bronze	\$100 - \$999	-	From 1% up to 5%	From 30% up to 150%	219 days

Diamond	\$10 000 - \$50 000	+0.35%			69 days

Pre-Lending Program

1. Taking part in our Pre-Lending Program, each investor will receive additional 0.25% income every day.
2. We will take coins in landing at a rate of at least \$5.
3. Pre-lending starts on April 2, 2018 and will last for only 7 days, i.e. till April 8, 2018 inclusive. So you better don't miss a good chance to get extra profit!
4. Only ICO participants can participate in the Pre-Lending Program.

Investor	Lending amount	Additional bonus interest per day	Min/Max interest per day	Total interest per month	Duration

Affiliate Program

1. Each participant can build his own referral network and earn two types of bonuses from ICO or lending investors. Referral bonuses are available only for those founders of referral networks **who have bought 50 tokens at least**.
2. We don't limit the number of referral levels so that you could create any network as deep as possible. After the 6th level the founder will receive the fixed 0.1% referral bonus for each level.
3. Referral bonuses are paid in US dollars and can be used for lending or withdrawn out of system. All you have to do is simply buy TradeNetCoin tokens and to put them into lending or exchange for other cryptocurrencies.

Level	Referral bonus from lending investment	Referral bonus from ICO investment

Staking Program

1. To use staking program, you have to download a special wallet and transfer the coins to one. For storage of coins we will assess an extra interest for you as TradeNetCoin tokens, so your income will only increase.
2. The longer you store the coins, the more new tokens you get.
3. We will notify you in social media in advance about the readiness of our wallet, and right after that you can start using it. First of all we plan to release a desktop wallet, and then a mobile one. Stay tuned for our news!

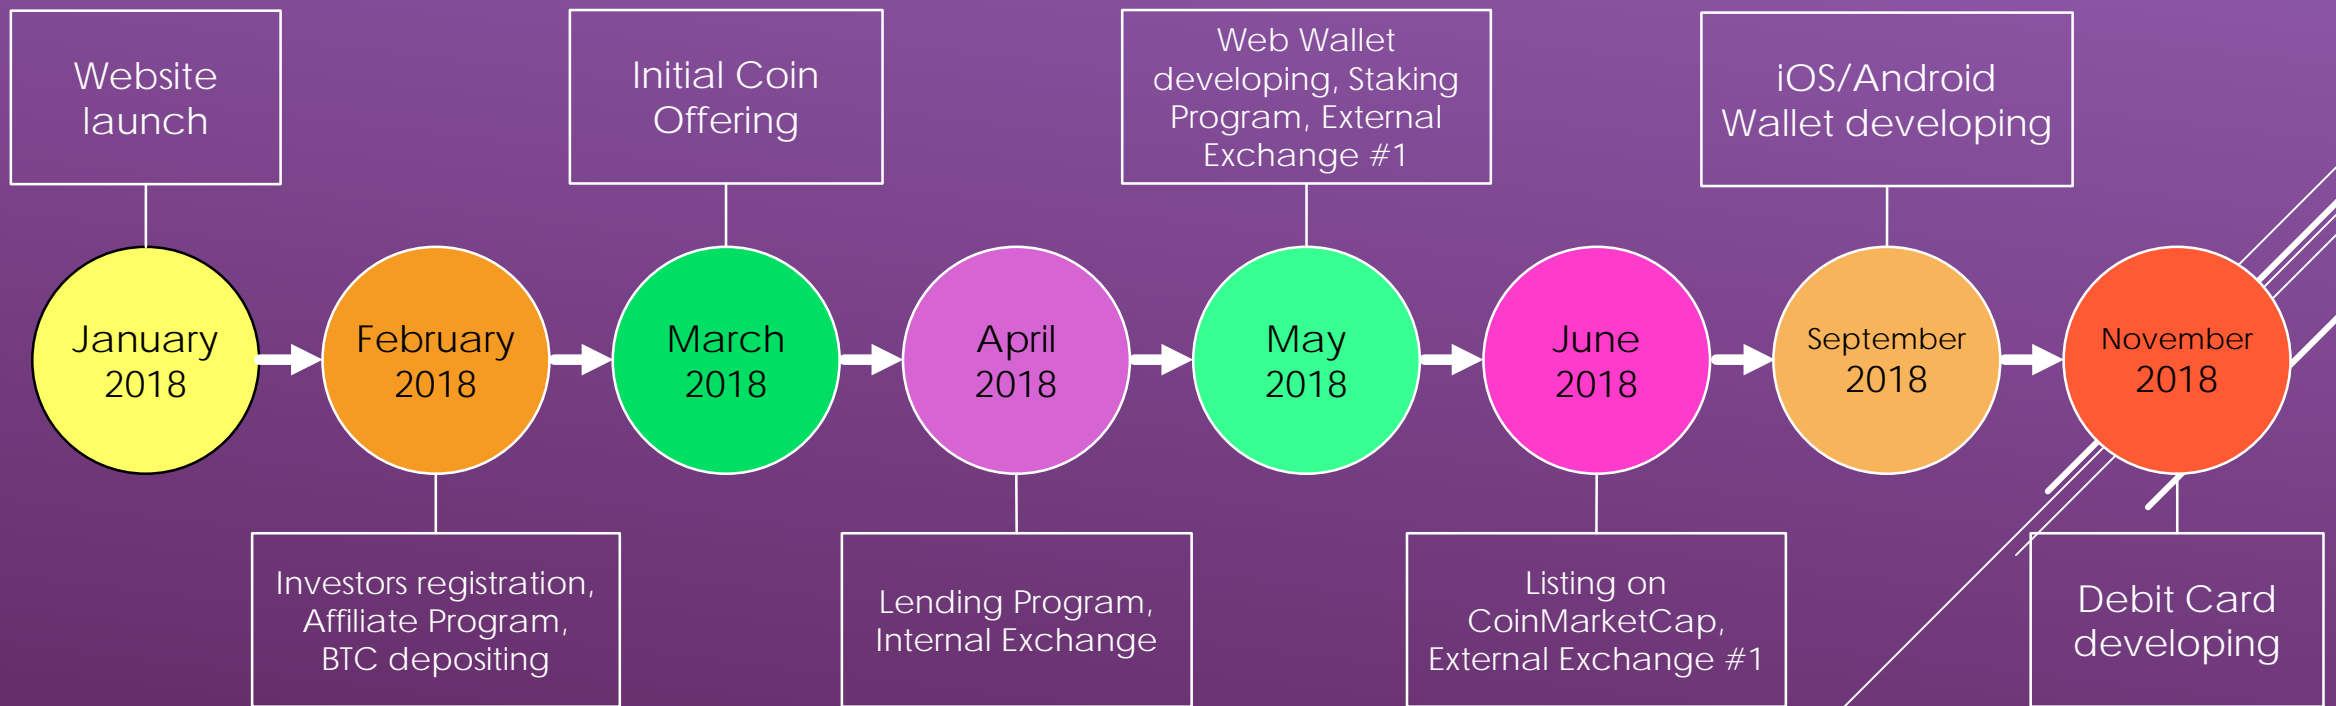

Duration	Interest per month
1-6 months	12%
6-12 months	10%
13-18 months	8%
19-24 months	5%
25 and more months	3%

Road Map

The roadmap is not the ultimate truth and can be adjusted by the TradeNetCoin team during the development of the project. But we will do our best to implement all the points of our plan.

The most important points of the road map that will be deployed in the first place are the Lending Program and the Internal Exchange.
